

ACER ALTOS SOLUTIONS

HIGHLIGHTS

- Affordable, entry-level server solution
- Best in class upgradability
- Best in class redundancy solutions
- Best in class performance
- Comprehensive systems management and installation solutions available

The ultra-affordable Acer Altos G310 delivers outstanding value and availability to small and medium-sized businesses. Advanced capabilities make the server easy to manage, which can help control IT expenses.

In addition to affordability, the G310 offers you the possibility to run RAID 0 or 1 on the latest SATA storage technology in a flexible and affordable manner.

Exceptional price performance

Flexible systems design methodologies allow you to configure the G310 to match your budget.

An Intel® Pentium® 4 processor with up to 800MHz front-side bus speed, Hyperthreading technology and SATA RAID storage provide affordable performance and data protection. This exceptional price performance allows the Acer Altos Solution partner community to offer Server features to SMBs at Desktop prices.

Best in class redundancy and scalability solutions

The G310 allows you to configure the system, to adapt to your business requirements.

- Optional SATA RAID
- Optional SCSI support to provide increased scalability, performance and fault tolerance
- Five PCI slots for improved performance and productivity
- Integrated Gigabit Ethernet for fast connectivity

Easy to install and manage

Acer Easybuild simplifies the installation and set-up, by providing an intuitive GUI based process and by providing all relevant tools to set up your Acer Altos G310.

Advanced Server Manager software makes comprehensive systems management easy. ASM provides performance management and critical event management services to network administrators.

These solutions help you control IT expenses by making the G310 simple and efficient to manage.

Typical solutions scenarios

- SMB application services
- File, print and fax services
- Share web access
